

ASSIGNMENT – 4

3) Create a IBM container registry and deploy helloworld app or jobportalapp.

The screenshot shows the IBM Cloud Container Registry interface. The left sidebar contains navigation links: Container Registry, Quick start, Namespaces (1), Repositories (1), Images (1), Trash (0), and Settings. The main content area is titled 'Namespaces' and shows a table of existing namespaces. The table has columns for Name, Resource group, Repository count, Image count, and Retention policy. One namespace is listed: 'nalayathiran-project' in the 'Default' resource group, with 1 repository, 1 image, and a retention policy of 'Retain all images'. Below the table, there is a section for the repository 'icr.io/nalayathiran-project/time' with 1 image and updated 2 hours ago. The bottom of the page shows pagination: 'Items per page: 25', '1-1 of 1 item', and '1 of 1 page'.
